

Montana Creek (Stream No. 111-50-10500-2003) Tributary

Habitat Biologist Jackie Timothy and I tracked and trapped this stream on 5-11-10. This tributary connects to another uncataloged tributary flowing into Montana Creek. The last waypoint is a trap placed at the base of a barrier falls, no other barriers on the stream. The stream provides excellent rearing habitat.

Waypoint #	Location	Description
6	58.4364, -134.6430	Confluence with uncataloged tributary to 111-50-10500-2003
7	58.4363, -134.6431	Trap Location- 5 Dolly Varden 40-60mm
8	58.4362, -134.6434	Trap Location- coho 75mm, Dolly Varden 85mm
9	58.4361, -134.6436	Trap Location- 2 coho 60mm, Dolly Varden 50mm
10	58.4360, -134.6444	Trap Location- cutthroat trout 120mm, Dolly Varden 45mm
